Student Planner System

by **hdc**

HOMEWORK

No more lost planners and **no more excuses!**

All homework will be set using Milk and can be accessed from a smart phone, tablet or pc in or out of school **by both the parent or student login.**

Teachers can see whether or not you have looked at your homework and if you need any **extra support.**

Parent/students can see **homework tasks and status** - has it been done? Is it overdue?

DASHBOARD

Parents/carers and students can see what is going on at all times – you can act on it!

The dashboard shows attendance, punctuality, subject **targets and progress.**

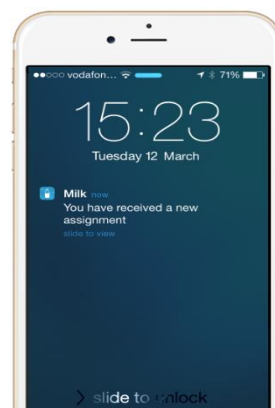

Milk Student Planner (milkstudentplanner.com) is designed to make the lives of students and staff much easier!

Milk is very simple to navigate and will send notifications to your phone and registered email address whenever a piece of work is assigned or a message is sent from school.

All teachers will be using Milk to set and monitor homework but you will still use your planner and have paper copies of worksheets as required.

If you lose your phone/tablet or do not have one there is access to Milk before school, during (break/lunchtime) and after school in the Digital Centre via pc access.

Appendix 2: Milk Student Planner screenshots for parents/carers and students:
