Sixth Form Information Evening

A massive thank you to all students who volunteered at the Sixth Form Information Evening. You gave an invaluable insight into the Sixth Form experience.

Raspberry Pi Competition

If you enter the Raspberry Pi competition there is the possibility to win £1000! The aim of this year's competition is to produce innovations that will improve the lives of people who have conditions that limit their ability to do things the rest of us take for granted. Inventions could range from technology which helps athletes win a medal in the Paralympics, aids visual impairment or learning difficulties, to those which use music therapy to help mental health. You are able to enter in groups and if you would like to enter please see Miss Edge.
