

Year 11 November History Mocks

Paper 1 Medicine 1hr 15 min

Skills to revise:

Q1) 2 key features - One key feature was... some facts to support this are...

Q2) Utility- Learn utility CCNOP. Content – what is it saying or showing and why is that useful? Context- what is your own knowledge - be specific and does this agree with the source? If it does it is successful. Nature- what is the source? E.g. a newspaper and why might this be useful in looking at your topic. Origin- When was it made or by who? Are either of these going to help you study the topic- do they know what they are talking about? Purpose – why has it been made? For propaganda or genuine reporting- how does this impact the utility?

MOST IMPORTANTLY- link every point to the topic of the enquiry E.g. trench injuries. If you are short on time pick two of NOP and combine them to make a comment on utility at the end.

Q3) Follow up question. Use a quote or description from the source, then ask an EASY question about the source e.g. most common injury, amount of deaths etc., then say where would you find the information to your Q- be specific e.g. records from CCS,ADS or base hospitals- make sure you know the roles or each to pick the best one. Finally, say how the information from the last point would help you answer your question (this should be quite detailed).

Q4) Compare question- you will be given two time periods. You need to say how something changed or stayed the same- be specific

Eg. In the Renaissance period blood transfusions were...

But by the 20th century this had changed as blood transfusions were...

Q5) 12 Mark explanation question. Needs three PEE's focusing on how something improved, changed or stayed the same.

Q6) 16 mark explain question. Look at 3 factors. Complete a PEEL for every factor answering the question. **MUST have a conclusion**, which one was the most important factor? Pick it by deciding if it helped the most people, or led to further developments in medicine down the line.

Topics to revise:

- **All medicine on the Western Front**
- **Before and after for black death and plague/ hospitals and government involvement.**
- **Prevention for disease in Middle Ages, Renaissance, Age of Enlightenment and Modern**
