## Year 9 Revision Guidance

**Name:**

**Form:**

# SMART REVISION

## WELCOME

Welcome to revision guide for Year 9 students.

Unfortunately, there is no easy way to pass tests, but we can give you tips on how to revise more effectively. Many of the learning and revision strategies in this booklet are applicable to a vocabulary test in Year 7 and to the final examination of a degree level course.

Although this booklet contains great advice, super tips and fantastic study skills, the guide isn't as important as the person reading it – YOU! It is you who have to put them into practice and apply them to your work. If you do, we're sure that you will improve your performance and your study skills. But to get better at something, you have to practise!

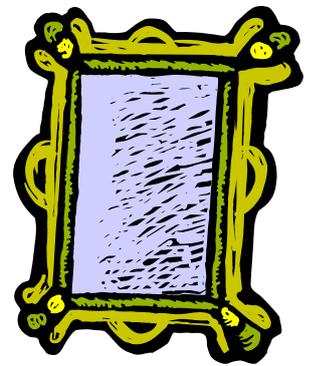

**So, over to you – happy studying and good luck!**

# SMART REVISION

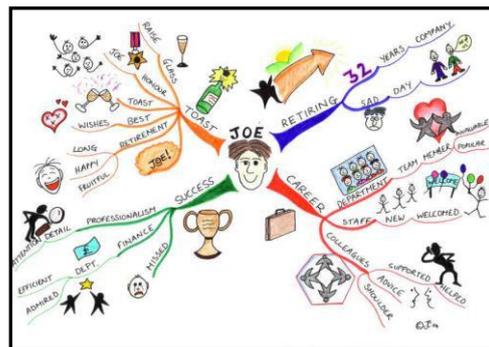

Revision means “to look at again”. You need to look at things again as part of learning as well as in preparation for exams. But we need **active** ways to do this “looking again”.

Revision gives time for reflection and learning. You can start to see the big picture, you can add in more details and examples. You may discover something you still don’t understand and you can ask your teacher about it again.

The idea is to “revise” each major section of your work shortly after you have finished it. For instance, you could draw a Mind Map of each major topic you cover. Keep the Mind Maps because they will be very useful for revising before tests.

**HOT TIP: be active and change the way you think**

# SMART REVISION

## WHY?

1. Revision helps learning
2. Revision increases your achievement in tests
3. Achievement in tests give you wider choices later on
4. Achievement will make everyone proud of you!
5. You will feel great!

It is important to be positive about yourself because people who think they can do well find it easier to learn. Think about five things which you felt good about doing – scoring a goal, asking someone out ... think about how you felt when you did those things...and get yourself into a positive frame of mind.

**HOT TIP: get yourself a vision of success**

# SMART REVISION

## WHEN?

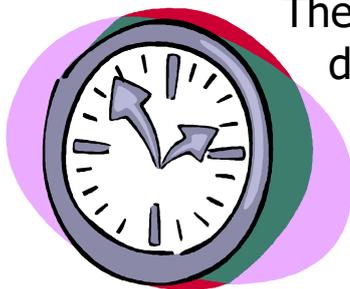

Make sure you know when your tests are. Teachers will revise with you and give you advice about how much revision to do, what you should revise and many will give you special notes to help with revising.

Make yourself a **revision timetable**.

- ★ Fill in leisure, relaxation and family commitments
- ★ Put in some sessions that you can devote to revision
- ★ Share out the available revision sessions between your subjects
- ★ Allow extra sessions if you know some subjects will take longer than others
- ★ Vary the subjects – don't do all your Maths revision on day one!
- ★ Here's an example for *one* weekend:

	Morning	Morning	Afternoon	Evening
Saturday	Football	Maths; geography	Science; RE	Video
Sunday	English; tech	Lunch at gran's	Still at gran's	French; history

The ideal length to revise one topic is **25 to 45 minutes**, depending on the subject and method of revision. You remember more at the beginnings and the ends of sessions, so create more beginnings and ends by stopping for a brief break.

**HOT TIP: stop and start – create brief breaks**

# SMART REVISION

## WHERE?

The ideal study room is light, airy, quiet, with shelves and a desk. Some people are lucky enough to have this and enjoy working in it. Don't worry if you haven't got this. You can still try to get some of the elements. It's a good idea to put up posters, lists and post-it notes in other places in the house.

Some students find they revise well with friends and it is a good idea to do this sometimes as a bit of variety and fun.

Avoid distractions! Ban the television and ask someone at home to look after your mobile phone while you revise. Remember to keep a space in your revision timetable for your favourite programmes.

Lots of students find that some background music helps the revision process. Classical music such as Mozart can help to stimulate your brain waves. Avoid music with lyrics as you are likely to concentrate on these rather than your work!

**HOT TIP: Learning self-discipline will help all through your life**

# SMART REVISION

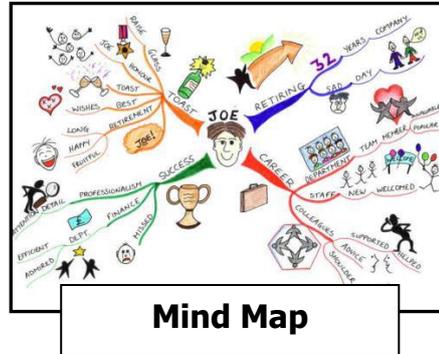

## HOW?

There are three easy steps to doing revision well:

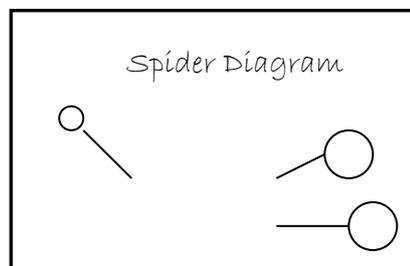

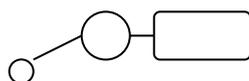

- ★ Change
- ★ Challenge
- ★ Treats

The first step is to try **change**. By changing what is in our exercise books or textbooks into a different form, we kick start our brains into action – we start thinking about new ways of presenting and digesting the information and start learning.

Ways to change things:

- Make diagrams
- Labelled drawings
- Time-lines (for history)
- Mind maps
- Charts and flowcharts (for processes)
- Audio tapes (great for languages)
- Outline cards
- Mnemonics
- Use colours and highlighters

**HOT TIP: Flick through outline cards before the test**

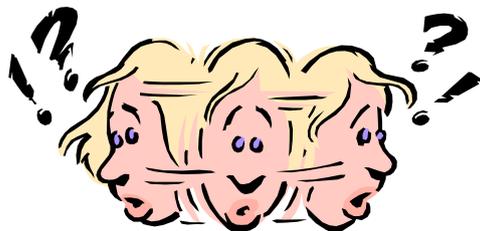

# SMART REVISION

We work best when we are faced with a **challenge**. A challenge is something that is difficult, but not impossible.

Challenge yourself to really sort out a topic that you have found difficult.

- Will taking a new approach and turning it into a chart, diagram or Mind Map help?
- Get someone to test you after you have learned something new.
- We learn extremely well when we have to **teach** someone else – why not try teaching one of your parents, a brother or sister, your grandparents or even your friends?
- Get them to ask you questions about what you have just taught them – can you answer their questions?

**HOT TIP: Believe in yourself – you CAN do it!**

# SMART REVISION

Don't forget to allow yourself some **treats**. Break up your revision sessions and plan some treats to look forward to: fruit, chocolate, a drink, ten minutes in the garden, glancing at a magazine, going for a walk...whatever will motivate you.

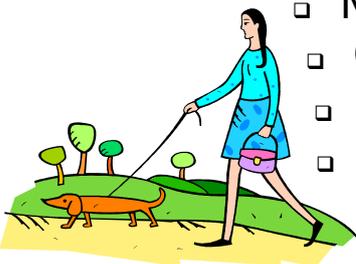

Remember, breaking up your revision gives you more stops and starts and more stops and starts increase your learning.

Relaxation is important to help you stop feeling the pressure of tests and getting stressed. Find a simple technique that works for you and practice using it when you are stressed or can't sleep. Have you tried:

- A warm bath
- Visualising yourself passing the test
- Stroking a pet
- Deep breathing
- Meditating
- Going for a walk
- Asking someone to give you a head massage
- Yoga
- Losing yourself in some soft music?

**HOT TIP: Feed your brain! Fresh fruit, water, fish and vegetables give you brain power!**

# SMART REVISION

## Year 9: Maths Revision List

The End of Year 9 exam will focus on the work covered in Maths across the school year.

For students in groups 9K1, 9K2, 9W1 and 9W2 we have covered:

Unit 4: Fractions, Decimal and Ratio

Unit 5a: Angles (Parallel Lines and Polygons)

Unit 5b: Right Angle Triangles (Pythagoras' Theorem and Trigonometry)

Unit 6a: Graphs (Linear)

### Year 9: End of Year Test (9K1, 9K2, 9W1 and 9W2)

<a href="https://www.mathedup.co.uk/gcse-maths-takeaway/">https://www.mathedup.co.uk/gcse-maths-takeaway/</a>			How Confident Am I?			GCSE Takeaway	Hegarty Clip:	Have I Revised?	GRADE
Qu	Mark	Question Topic	G	A	R				
1	2	Simplifying Ratios (Unit 4)				28	329		3
2	7	Fractions (Unit 4)				27	66 and 68 - 70		5
3	2	Angles on Parallel Lines (Unit 5a)				33	481 - 483		3
4	4	Linear Graphs Basics (Unit 6ab)				14 and 66	199		3
5	4	Angle Problems (Multiple Steps) (Unit 5a)				33 - 35	485 - 487, 477 and 481 - 483		5
6	2	Value for Money (Unit 4)				26	763 - 766		4
7	2	Trigonometry (for Lengths) (Unit 5b)				89	509 - 510		4
8	2	Gradient (from Two Coordinates) (Unit 6ab)				-	203		4
9	3	Percentage Change (Unit 4)				51	97 and 90		5
10	3	3D Pythagoras (Unit 5b)				105	505 - 507		6
11	2	Equation of a Straight Line (Unit 6ab)				66	208 - 210		5
12	3	Angles in Polygons (Unit 5a)				33 - 35	561 - 564		6
13	2	Reverse Percentage (Unit 4)				84	96		5
14	2	Drawing Linear Graphs (Unit 6ab)				66	206 - 207		3
15	3	Sharing and Using Ratios (Hard) (Unit 4)				28	332 - 334		5
16	3	Interior and Exterior Angles (Unit 5a)				35	561 - 564		7
17	3	Pythagoras with Coordinates (Unit 6ab)				70	501 - 502		5
18	5	Trigonometry: Area and Surface Area (Unit 5b)				71	557 and 509		7
19	3	Collinear Coordinates				-	203		8
20	3	GCSE Exam Questions: Recurring Decimals to Fractions (Unit 4)				93	53 - 54		9
21	4	GCSE Exam Questions: Ratio and Trigonometry (Unit 4 and 5b)				28 and 89	332 - 334 and 511 - 512		7
22	5	GCSE Exam Questions: Ratio and Percentage Profit (Unit 4)				28 and 51	332 - 334, 97 and 759 - 760		8

# SMART REVISION

For students in groups 9K3, 9K4, 9K5, 9K6, 9W3, 9W4 and 9W5 we have covered:

Unit 4: Fractions and Percentages

Unit 5: Equations, Inequalities and Sequences

Unit 6: Angles (Parallel Lines and Polygons)

Unit 7: Averages and Data

## Year 9: End of Year Test (9K3, 9K4, 9K5, 9K6, 9W3, 9W4 and 9W5)

<a href="https://www.mathedup.co.uk/gcse-maths-takeaway/">https://www.mathedup.co.uk/gcse-maths-takeaway/</a>			How Confident Am I?			GCSE Takeaway	Hegarty Clip:	Have I Revised?	GRADE
Qu	Mark	Question Topic	G	A	R				
1	7	Averages, Quartiles and Range (Unit 7)				20	404 - 412		3
2	1	Measuring Angles (Unit 6)				15	458 - 460		1
3	3	Fractions, Decimals and Percentages (Unit 4)				7	149		2
4	9	Fractions (Unit 4)				27	66 and 68 - 70		3
5	3	Stem and Leaf Diagram (Unit 7)				49	430 - 433		2
6	2	Angles in Triangles (Unit 6)				34	485 - 487		2
7	5	Solving Equations (Unit 5a)				59	179 - 182		3
8	2	Ordering Fracs, Decs and Percs (Unit 4)				25	149, 60 and 46		2
9	2	Finding the nth Term (Unit 5b)				65	197 - 198		2
10	2	Angles on Parallel Lines (Unit 6)				33	481 - 483		2
11	5	Inequalities on a Number Line (Unit 5a)				61	265 - 266		3
12	3	Complex Mean Questions (Unit 7)				20	405 - 407		4
13	3	Substitution (Indices) (Unit 5a)				32	780 - 783		3
14	2	Exterior Angles (Unit 6)				35	563 - 564		4
15	3	Solving Linear Equations (Unit 5a)				59	184 - 185		5
16	4	Exam Style Questions: Sequences (Unit 5b)				65	919 - 920		4
17	2	Compound Interest (Unit 4)				83	94		5
18	2	Forming Expressions (Unit 5a)				64	176		4
19	3	Drawing Box and Whisker Plots (Unit 7)				91	434 - 436		4
20	4	Angles in Triangles (Hard) (Unit 6)				34	485 - 487		4
21	4	GCSE Exam Questions: Substitution and Rearranging (Unit 5)				33 and 60	780 - 786 and 281		5
22	4	GCSE Exam Questions: Angles (Unit 6)				33 - 35	485 - 487 and 481 - 483		5
23	3	GCSE Exam Questions: Percentages (Unit 4)				51	90 and 759 - 760		5

# SMART REVISION

## Year 9: English Revision List

### English Department - Year 9 Summer Exam Revision Guide

In this year's summer exam, you will be completing a full GCSE Component 1 Mock exam for English literature. This paper will be 2 hours long (just like your real GCSE).

In preparation for this, you will need to do some revision at home. For this to be successful, you will need to know certain things:

- What should I revise?
- How can I revise?
- What are my teachers looking for?

#### What should I revise for Section A?

- All the work you have done on Macbeth with your class teacher
- How to structure a response for an extract question
- How to structure a response for an essay question
- Key context details for the Jacobean era
- How to use quotes and how to explain what they mean
- Subject terminology (e.g. verbs, adjectives, similes etc)

#### What should I revise for Section B?

- All the work you have done on the Poetry Anthology (yes all 18 poems) with your class teacher
- How to structure a response for a close analysis of an individual poem
- How to structure a response for a comparison between two poems
- Key context details and quotes for each poem
- How to use quotes and how to explain what they mean
- Subject terminology (e.g. verbs, adjectives, similes etc)

#### How can I revise?

- Read over all your class notes for each text
- Create / revise flash cards
- Use GCSE Pod to go over key ideas for each text
- Practise questions

#### What are my teachers looking for?

- Good understanding of the texts you have read, with effective quotes and subject terminology if necessary
- An understanding of how to structure your responses effectively to ensure you are able to include all the content you need AS WELL AS allowing you the time to answer all the questions
- ... and of course, accurate spelling, punctuation and grammar throughout your writing

# SMART REVISION

## Year 9: Science Revision List

### Science

Students will be sitting 1 science exam covering the units they have completed this year. They will need to revise Practical skills, B1 Cell Biology, C1 Atomic Structure and C5 Energy Changes.

B1 Cell Biology - <https://www.bbc.com/bitesize/topics/z2mttv4>

C1 Atomic Structure - <https://www.bbc.com/bitesize/topics/zcckk2p>

C5 Energy Changes - <https://www.bbc.com/bitesize/topics/z27xxfr>

Practical Skills:

<https://www.bbc.com/bitesize/topics/zqgmmsg>

<https://www.bbc.com/bitesize/topics/zx266yc>

<https://www.bbc.com/bitesize/topics/z9r997h>

<b>My Exam dates and times</b>	
<b>Maths</b>	
<b>English</b>	
<b>Science</b>
