

Key term	Definition
Freeze Frame	Everyone in the scene suddenly stops and becomes like a still picture
Thought Tracking	When an actor stops what they're doing and says out loud what their character is thinking
Body as Object	This means using your body to represent an object instead of a character.
Naturalism	This is when acting looks and feels very real, just like how people talk and behave in everyday life. It's not exaggerated or pretend.
End On Stage	This is the most common way a stage is set up. The audience sits in front, looking directly at the stage
Facial Expression	This is what your face shows to tell people how you're feeling
