## Topic: Exploring South America

Working Towards	Expected Standard	Reaching Greater Depth
-----------------	-------------------	------------------------

To achieve 'Expected Standard' you will be able to....	WT	ES
ES1. Use of a map to locate different countries within South America		
ES2: Describe some human and physical features in South America, including major cities, rivers and rainforests		
ES3. Explain the location of a glacier in South America and explain why glaciers constantly move.		
ES4. Describe and explain reasons for rural-to-urban migration in Brazil including push and pull factors such as employment and conflict		
ES5. Describe some of the key characteristics of favelas in Brazil, including crime and quality of the buildings		
ES6: Identify reasons why favelas need to be developed in order to improve people's lives		
ES7: Identify reasons why people visit Peru, including hiking or sightseeing		
ES8: Identify reasons for and against the tourism industry in Peru		
ES9. Identify which cities and countries in South America have the highest murder rate and show this by creating a choropleth map.		
To achieve 'Greater Depth' you will be able to...	GD	
GD1. Evaluate the effects of migration on the country of origin and host country.		
GD2: Evaluate whether or not the benefits of tourism outweigh the negatives
